

Overview of the Features Offered in the Heart Tech Plus Platform

The Heart Tech Plus team is excited to provide potential customers with an overview of our product and its features. **We recommend everyone, considering the purchase of similar systems to compare competitor features and benefits with the Heart Tech Plus platform.** Please, use the checklist sheet below to compare all the different options. We are confident that administrators, teachers, students and even parents will benefit from the use of the Heart Tech Plus Platform.

Good luck with your search for the best heart rate platform solution for your PE program! If you have any questions or would like a demo please contact rich@hearttechplus.com

Key Features

- Exclusive **charging/storage case**
- Automatic Heart Rate Zone Customization: The teacher has the **option** for the system to set customized heart rate zones for all users using the “Save Highest Heart Rate” feature. This allows the teacher to set individualized zones for each student rather than using a mathematical formula. This help create a level playing field for all students.
- 4 display types including HR, HR & MVPA, HR & Steps, and Steps.
- Activity Selection for PE Classes
- Zoom in view to allow for individual conversations with students during class.
- Automated email class summary reports to the student and/or parent after every class.
- Measures moderate to vigorous physical activity (MVPA) including total time and percentage.
- Data collected can be utilized to assess students and teaching effectiveness.
- Options to set goals for students to achieve during class based on MVPA minutes, MVPA percent, points, and/or steps.
- Easily start class and begin collecting data within seconds.
- Option to display (project) data live for students to view during class.
- Heart rate graphs for every student that can be seen after class in the web portal.
- Easily create district, school, class, and/or individual reports based on any date range report.
- Data collected and available for viewing includes: student personal best, trends of 4 different metrics, goals met, recovery HR, max HR, lowest HR, and much more.
